Consulting Team

SEO CONSULTANT

President
Takeshi Amano

As a marketing expert with Google Analytics Individual Qualification (GAIQ), I bring a unique blend of expertise to our company. After earning my degree from the Faculty of Law at Nihon University, I expanded my global perspective through extensive travels in countries such as Australia, Italy, France, Thailand, and Cambodia. I further honed my language skills and international outlook during a year-and-a-half stint in England. Upon returning to Japan, I gained sales experience at an advertising agency before founding Admano in 2012.

International Web CONSULTANT

Web Analysis consultant
Paveena Suphawet

As a trilingual expert in English, Thai, and Japanese, I have a proven track record in overseas SEO. I hold a BBA in Information Technology from Assumption International University in Thailand and an MA in International Business Management from the University of Greenwich in London. After gaining valuable experience at ExxonMobil's Thai branch, I've been contributing to Admano since its inception.

SEO CONSULTANT

Web analyst
Ayaka Kuragami

As an SEO consultant with hands-on web production experience, I bring a 360-degree perspective to digital strategy. My journey began as a coder, creating websites for diverse clients and mastering UI/UX design and analytics. This comprehensive skill set has equipped me to excel in professional strategy planning for SEO and web analysis.

Development in Thailand

We're in the process of expanding our business into the Thai market, and Tokyo SEO Maker has been instrumental in this journey. They didn't just assist us with SEO in Japan; they extended their expertise to cover overseas SEO and web marketing as well. Their deep know-how in these areas has been invaluable.

Ms. Paveena, who heads their overseas SEO department, has been particularly helpful. She even accompanied us on trips to Thailand, providing on-the-ground support that has been crucial for our expansion.

We have big plans for the future and are looking forward to continuing our relationship with Tokyo SEO Maker for our international SEO needs.

FAQs

Q. What are your SEO measures?

A. An SEO consultant works with the team to formulate an SEO strategy and work on improving SEO on a monthly basis. If necessary, we will support the implementation of SEO work. The goal is to help your keywords rank higher in search engines and increase organic traffic and conversions. Specifically, we will carry out internal SEO measures and external SEO measures.

Q. How will SEO measures be reported?

A. Tokyo SEO Maker (our company) will send monthly reports by email and hold monthly meetings using ZOOM or Google Meet. We make ranking reports, site improvement reports, confirm problems, etc., and share the details of our measures with our customers once a month. It's easy to see what we did and which team member did the work. Having everything in sight will give you peace of mind and keep you moving in the right direction.

Q. How long does it take to see the results and effects of SEO measures?

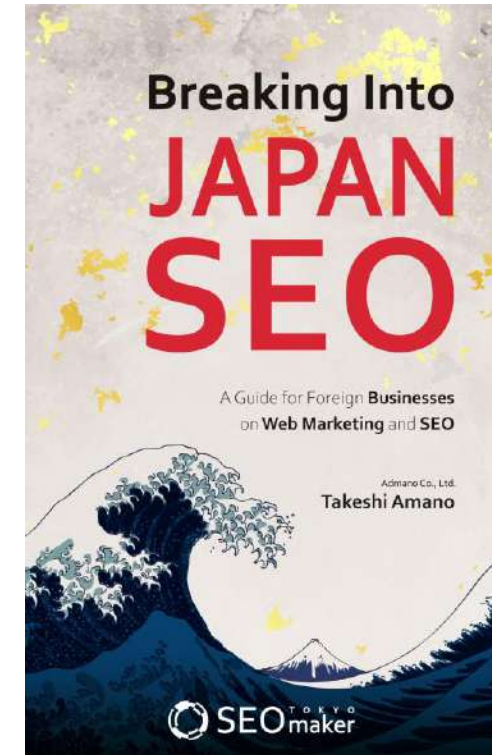

A. It takes about half a year to a year for the SEO effect to appear. The time it takes to see results from SEO measures depends on many factors, such as past penalties, the status of competitors, the age of the domain, and the current ranking of the site. The goal of SEO is to appear on the first page of search results, and a gradual increase in ranking will also increase the brand and overall awareness of your site. SEO requires long-term efforts, and steady efforts are essential to achieve top rankings.
